PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 7+ years of experience building production web, mobile, and backend systems using React, React Native, TypeScript, Node.js, and AWS. Experienced in developing scalable frontend applications, backend services, REST APIs, microservices, and event-driven systems. Currently a Founding Engineer at Zizka AI, contributing to ZizkaDB, an open-source operational database for AI agents, with hands-on experience in LLMs, AI agents, RAG, LangGraph, MCP, and AI system reliability.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python

Frontend: React.js, Next.js, React Hooks, Redux, Redux Toolkit, Zustand, TanStack Query, Context API

Backend & APIs: Node.js, Sails.js, REST APIs, Microservices, Event-Driven Architecture, System Design, API Design

Cloud & Databases: AWS Lambda, SQS, SNS, DynamoDB, Redshift, Redis, Database Design

Mobile Development: React Native, Expo, iOS/Android Builds, Xcode, Android Studio, Native Modules, App Store & Google Play Deployment

AI Engineering: LLMs, OpenAI, Anthropic Claude, Cursor, AI Agents, RAG, LangGraph, MCP, Vercel AI SDK, Prompt Engineering

Testing & CI/CD: Jest, Detox, Unit Testing, TDD, Git, GitHub Actions, GitLab, Bitrise, Release Management

Monitoring & Analytics: Sentry, Reactotron, CloudWatch, Mixpanel, Firebase Analytics, Google Analytics, Hotjar

Internationalization: i18next, Locize

Engineering Practices: Agile/Scrum, Code Reviews, Cross-Team Collaboration, Feature Flags

PROFESSIONAL EXPERIENCE

Founding Engineer

Zizka AI S.L. | Remote | Jul 2026 – Present | Full-time

- Contributed to the architecture and public release of ZizkaDB, an open-source operational database purpose-built for AI agents.
- Built multi-agent orchestration and tool-calling integrations using LangGraph, MCP, and the Vercel AI SDK.
- Integrated and evaluated LLMs from OpenAI and Anthropic based on performance, cost, and suitability for different use cases.
- Improved AI system reliability through prompt engineering, automated evaluations, and failure-mode analysis.

Tech Stack: TypeScript, Node.js, LLMs, OpenAI, Anthropic Claude, RAG, LangGraph, MCP, Vercel AI SDK

Full Stack Software Engineer – Customer Domain

Washmen | Dubai, UAE | Hybrid | Aug 2023 – Jul 2026 | Full-time

- Spearheaded an AI-first approach to the customer domain, embedding LLM-powered features and AI-assisted engineering practices into full-stack delivery across web, mobile, and backend systems.
- Integrated LLM-powered features (OpenAI, Claude, Gemini APIs) into the mobile app for in-app assistance and smarter user flows.
- Developed and maintained Progressive Web Apps (PWAs) and mobile applications for partners including Careem and InstaShop, improving performance, reliability, and overall user experience.
- Designed and implemented scalable backend services and APIs using microservices and AWS technologies, including Lambda, SQS, and SNS.
- Delivered end-to-end full-stack features, contributing across frontend, mobile, backend, and API layers to ensure seamless customer experiences.

- Improved mobile application performance, stability, and reliability through debugging, profiling, monitoring, and optimization using CloudWatch, Sentry, and Reactotron.
- Implemented Event-Driven Architecture and asynchronous communication patterns to build scalable, resilient systems.
- Integrated analytics and user-tracking platforms (Mixpanel, Firebase, Google Analytics, Hotjar) and followed TDD practices to support data-driven, quality-focused delivery.
- Implemented internationalization (i18n) using i18next and Locize to support globally scalable, localized applications.

Tech Stack: React.js, React Native, Node.js, Microservices, AWS (Lambda, SQS, SNS), OpenAI/Claude/Gemini APIs, Event-Driven Architecture, CloudWatch, Sentry, Reactotron, Mixpanel, Firebase, Google Analytics, Hotjar, i18next, Locize, TDD, Agile/Scrum

Software Engineer | React Native | React.js

Retailo Technologies | Riyadh, Saudi Arabia | Remote | Jun 2022 – Jul 2023 | Full-time

- Developed responsive frontend features for B2B marketplace applications using React.js and React Native.
- Implemented application state management and API integrations using Redux, Redux-Thunk, and Redux-Saga.
- Contributed to the development of internal admin panels using React.js and Angular.
- Collaborated with cross-functional teams to deliver and maintain production marketplace features.

Tech Stack: React.js, React Native, Redux, Redux-Thunk, Redux-Saga, Angular, Firebase

Software Engineer | React Native | React.js

Sitgo Travels | Karachi, Pakistan | On-site | Jun 2019 – Jun 2022 | Full-time

- Developed and shipped mobile and web features using React Native, Expo, CLI, React.js, and TypeScript.
- Built reusable frontend components using functional components, React Hooks, and established application architecture patterns.
- Managed the Sitgo mobile application and production releases, including App Store and Google Play updates.

Tech Stack: React Native, Expo, React Native CLI, React.js, TypeScript

Software Engineer

Hao Saudi | Riyadh, Saudi Arabia | Remote | Nov 2018 – Jun 2019 | Contract

- Owned the frontend product lifecycle from MVP development through App Store and Google Play release with a small frontend team.
- Maintained a 99.2% crash-free session rate through proactive monitoring, debugging, and bug triage.
- Collaborated with cross-functional teams to deliver product features and ensure reliable integration across the application.

KEY PROJECTS & LIVE LINKS

- Washmen App (iOS) — UAE's leading on-demand laundry service app. apps.apple.com/pk/app/washmen-the-finery.
- Washmen PWA — app.washmen.com/home.
- Washmen Partner PWA (Careem) — careem.washmen.com.
- Retailo B2B Marketplace — B2B e-commerce marketplace in the MENAP region. play.google.com/store/apps/details?id=com.app.retailerapp.
- Hao App, Full Lifecycle (iOS & Android) — Riyadh-based platform for creative and adventure experiences. haosaudi.com.

OPEN SOURCE AI CONTRIBUTIONS
